NUMBER 176

BURLEY SPECIAL GREETED CROWDS

Twenty-five Hundred Farmers
Listen to Lectures

ENTHUSIASM GREAT AT RICH-
MOND AND SMITHFIELD.

Dairying and Stock Raising Principal
Subjects Discussed in Valley.

Wednesday and Thursday, nearly 2,500 farmers of Cache Valley, from Hyrum to Preston, Idaho, listened to the instructions delivered by professors of the Idaho and Utah Agricultural colleges in the special cars of the Burley special. Everywhere the train stopped were hundreds of farmers who greeted the speakers with great applause and cheered to the echo when the train pulled out.

The Burley special arrived here Wednesday night when the staff accompanying the train were dined at the Woman's Building by Pres. J. A. Widsøe and the Domestic Science school. Next morning at 6 o'clock the train pulled out for Preston. Due to misunderstanding the day for the appearance of the train was wrongly announced; but in spite of that fact, two hundred farmers were on hand at 8 a. m.

At Franklin and Whitney big turnouts greeted the train, one hundred and fifty at the former and half that number at the latter.

Crowds Cheer at Richmond.

At Richmond the greatest gathering that has yet greeted the train was on hand. So large was the attendance that double session had to be held. Two hours were spent there, from 12 to 2, and during that time the subject of dairying was discussed by the Institute speakers. Richmond is the chief town in the valley in the production of milk, and the interest shown by the people in the subject of dairying was of the very keenest and most intelligent nature.

As the train pulled away from Richmond, the crowd cheered lustily for the Institute people and the railroad.

Smithfield Repeats.

Not to be outdone in any way, Smithfield likewise greeted the special in a highly enthusiastic and interested manner. As at Richmond, more than three hundred were present, listening intently to lectures on dairying and horse breeding.

At Wellsville and Hyrum the same crowds and enthusiasm greeted the train. Yesterday the towns on the west side were visited and then the special moved on to Montpelier.

Boosted Cache Valley.

The time spent in Cache Valley was used to talk up dairying and stock-raising. The trend of all the lectures was upon these two subjects. On the west side, dry farming was discussed, in addition to the other two subjects. The farmers showed great interest in the lectures and manifested a good spirit toward the work attempted by the Institute men.

"CAVANAUGH: FOREST RANGER" NEXT SERIAL STORY

The next serial story to appear in this paper is "Cavanaugh: Forest Ranger," by Hamlin Garland. This story deals with the conservation problem, bringing into it some of the very prominent men connected with the troubles of the government over conservation. It is by one of America's foremost writers. The selection of this story is in keeping with the policy of this paper to get up-to-date material for its readers. "The Fortune Hunter," which ends today, has been the most popular story published in Logan. "Cavanaugh: Forest Ranger" is even better than that. Don't miss any installments. Begin your subscription today, if you are not a subscriber. The story is worth the price of the subscription.

CHICKENS AS DECORATORS.

Fancy birds to advertise the coming poultry show are all the rage with certain firms in Logan who are attracting attention to their windows. In the City Drug, Fred G. Smith has six Barred Rocks of surpassing beauty. In the Napper Drug company's window, W. K. Robbins has some birds of another class. Both exhibits show some very fine chickens, and is a sort of a foresight into the poultry show to open next Monday.

TO AID TESTING OF MILCH COWS

Commercial-Boosters' Club is
Behind Richmond Plan

TO ENTERTAIN UTAH PRESS AS-
SOCIATION JAN. 23RD.

Dunbar Heads Committee to Raise
Funds for County Fair.

The regular monthly directors' meeting of the Commercial-Boosters' club was held last Wednesday night. Several important matters connected with the club were disposed of, among the most important of which was taking the initiative in spreading the new system of cow testing being carried on in Richmond. At that city, the farmers have organized to carry on systematic cow testing, the purpose of which is to get the best quality of dairy cows. The cows which are under standard will be determined and eliminated, and the breeds which show the best results will be brought in to make the dairy business the most profitable.

Pres. J. A. Widsøe endorses the new move, and asks that it be encouraged as far as possible. The club authorized the appointment of a committee of three to induce more towns to cooperate with the people of Richmond in spreading this new effort to get better milk cows. Furthermore the State Dairymen's Convention which is to convene here Feb. 4th, will also be asked to work for state adoption of the movement.

The public entertainment and reception committee has in charge the matter of arranging the entertainment for the State Dairymen's Convention. Every effort is being made to make this meeting highly successful.

Three delegates will go to Brigham to secure the Horticultural Convention for Logan next year. This convention will meet soon in Brigham.

To Entertain Press Club.

The public entertainment and reception committee is very busy right now in preparing for the Press club meeting here on the 23rd and 24th. A reception will be given for the club at the club rooms the night of the 23rd. The program indicates that a most enjoyable time will be had.

Joseph Odell, H. G. Nebeker and Wm. M. Howell were named as members of a committee which is to collect some funds due the Fourth of July finance committee.

Two representatives are to cooperate with the Commercial club of Salt Lake and other clubs throughout the state for the purpose of forming a state advertising league.

Dunbar Heads Fair Committee.

George Dunbar is appointed as head of a committee to raise enough funds from the people to make the county fair an assured success. When these funds are assured, then a fair commission will be named to go forward with the plans for the annual county fair. It is felt that the funds for this purpose will easily be raised as every member of the club are perfectly united that the fair be held, and showed a spirit of getting behind and boosting for the proposition.

In view of the fact that the club is putting an exhibit in the Vermont building, the club felt that it would be a good thing to put a similar exhibit in the club rooms.

Committees Named.

Yesterday afternoon, Pres. E. P. Bacon named the following committees to carry out the work authorized by the directors' meeting:

To Secure Horticultural Convention. Prof. Leon D. Bachelor, chairman; Ras Rasmussen and Dr. E. D. Ball.

Cow Testing Committee.

John T. Caine, III, chairman, Lorenzo Hansen and J. L. Coburn.

To Co-operate With Commercial Clubs of the State.

H. G. Nebeker and Herschell Bullen.

ROBS HIS COMPANION

A drunk was brought into Judge Bringham's court who had robbed his companion. The two were out celebrating, when grief came their way.

One of the young men implicated in the robbery of a Greenville store, was lodged in jail yesterday.

ALONE IN SALT LAKE.

JIMMY—GEE, BUT DIS IS A LONESOME TOWN; NOTHING TO DO BUT TO HANG AROUND.

OFFICIAL RETURNS SHOW LOGAN HAS 7,522 SOULS

(Special to The Republican.)
Washington, D. C., Jan. 13.—The population of Logan city for the Thirteenth census is 7,522.

The above news reached this office from Director of Census, E. Dana DeLand. These returns give to Logan just one less than was announced by this paper last June. At that time the total was put at 7,523.

SCHOOL CHANGES OVER TO HIGH SCHOOL CLASS

Brigham Young College Falls Out of
Collegiate Athletics and Enters
the High School Leagues.

The B. Y. C. Basketball team has withdrawn from the collegiate league and has entered the state high school league. This action was determined upon after a conference with Coach Teetzel, president of the Intercollegiate League, and Coach Berwick of the university. These gentlemen decided that the B. Y. C. could not act very well in an other way than to withdraw from the collegiate league, and therefore, it was decided.

The reasons for doing so are that the B. Y. C. cannot compete with the colleges and then come back into the high school track events. This, with the fact that they are really a high school organization, compelled the recent change. The students are very much pleased with the change because that will throw them into a class in which they can better compete. The team tried to get into the high schools last fall, but there was a ruling to the effect that only those below the age of twenty-one could compete, which barred the B. Y. men. Since then this ruling has been withdrawn which allows the locals to go into the northern section of the high school league.

The team will now compete with the Weber academy, the Mutes and the Brigham City High school. The team winning out in this section will compete with the winners of the other sections, this continuing until the state championship is decided.

SENATOR SUTHERLAND IS UNANIMOUS CHOICE.

Salt Lake City, Jan. 13.—Senator George Sutherland was the choice of the Republican caucus held last evening in the offices of Judge T. D. Lewis for the senatorship from Utah for the following six years. The choice was unanimous, which means that next Thursday he will receive the vote of the legislature for the position which he now holds. Senator Carl A. Badger made the nominating speech.

CLASS MAKES VISIT TO FISH HATCHERY

Pres. J. H. Linford Takes Class in
Animal Husbandry to See Trout
Stripping.

An industry little known to the public is located near the Mendon road, about two miles from Logan. It is a fish hatchery which is owned by the Intermountain Trout company. A few days ago through the courtesy of Messrs. Wm. Worley and Heber G. Morrell, two officers of the company, President Linford of the Brigham Young College was enabled to take his class in animal industry to this place and give them an unusually interesting object lesson on the subject of trout stripping. The hatchery now has 150,000 fish, ranging in age from three months to three years old. It expects to hatch 800,000 more in the near future. The students join with others in wishing this industry success.

Instructor Lyle Allred of the Fielding Academy, who is here in charge of his basketball team, which plays the Brigham Young College team today, made a cheerful talk to the students in Nibley hall yesterday.

Nearly one hundred students are now getting physical training under Coach Joseph R. Jensen at the B. Y. College. The latest stimulus in the gymnasium has been created through the arrival of the new spring board, mattresses, and volley ball apparatus.

Commissioner Heber Parker of Wellsville was in the city yesterday attending to business.

BOY SCOUTS OF AMERICA

Logan Men Seek to Organize
Celebrated Movement

BIG MEN OF TWO NATIONS BE-
HIND ORGANIZATION.

Information Can Be Gotten at Office
of Republican.

What organization of boys in the city will take up the Boy Scouts of America movement?

This is the question agitating some of the people of this city who are interested in having boys actively engaged in some pleasant, useful tasks. Throughout Great Britain a similar organization is effective, arousing unbounded enthusiasm in the boys of the country and doing more for them in the way of giving agreeable entertainment and knowledge than almost any other movement yet organized for boys. Lieutenant-General Sir Robert S. S. Baden-Powell, K. C. B., heads the movement across the waters; and Ernest Thompson Seton, author of "Wild Animals I Have Known," that every boy loves, is associated with Baden-Powell for the organization of the Boy Scouts of America.

So there are big and well-known men behind this new effort to interest boys in something worth while. Here in Logan men are anxious to take up the movement and get the boys formed into some companies. The organization which will get behind this effort will find that it will have fun, practically, in getting keen interest from the boys.

Great Fun for Boys.

The boys have something in store for them if they take hold of The Boy Scout movement. There are three classes of scouts: Tenderfoot, Second-Class Scout, and First-Class Scout. And in each one of them is a load of fun. But no tonly that. The things to be done will make better men of the participants. Signalling, swimming, bandaging, running, camping, cooking by campfire, scouting, trailing, knowing mountains and woods, and many, many other things are included in the knowledge which is required of Scouts. It would be a perfect picnic for boys who are earnest and whole-souled.

There is something to think about, and many useful things to do to get promotion in the companies. The boy who is able to do things and wants to do them is given ample opportunity to display his fine qualities. There are places for leaders, for ambitious boys, and for athletic and sporting boys. Here is the one opportunity to have an organization which will fit boys to do things cheerfully and well, with a love for work to go along with it. Those boys who want to know more about the movement can come to the Republican office and get information about the movement, and be directed to the men who have it in charge. Those adults who are likewise interested to know more of the scouts can do likewise.

SOME BIRDS THESE

Joseph E. Wilson, Jr., Carries Off
Seven Prizes With Six Birds
at the Idaho Show.

Seven ribbons for six birds entered at the Idaho State Poultry Show is a good record, one would think. And it is for the secretary of the association writes down to Joseph E. Wilson, Jr., as follows: "You cleaned up all there was to be had in the Brown Leghorn Class. You sent a nice exhibit. We are proud to get such quality of birds."

But that will not discourage any man from entering that class here at the show that begins next Monday in the old Consolidated building on North Main, just south of the new Federal building. The entries are pouring into the secretary, Alma Olson; and there promises to be a first class showing at the approaching show.

The fact that Mr. Wilson carried off all these prizes show that there is some class to the style of birds Cache has to offer. And the quality is just as good in the other classes of birds. A great show is expected for Logan next week.

SORT THE PLUMS FOR COMMITTEES

Cache Delegation Well Taken
Care of by Both Bodies

C. L. FUNK HEADS EDUCATION
COMMITTEE IN THE HOUSE.

Senator Funk Gets on Senate Educa-
tion Committee.

The political plums have been shaken down so far as the committee appointments are concerned. Cache county fairs well, for in the House Funk and Bickmore are on the educational committee, with Funk as chairman. In the Senate J. W. Funk is on the senate committee on education. The various committees of which the Cache delegation form a part are given below. Each member of the house goes on six committees, and each senator on eight. Likewise each member secures a chairmanship of some committee.

J. W. Funk (Senate).

Agriculture and Irrigation, Education, Elections, Federal Relations (chairman), Labor, Public Health, Public Institutions, Railroads.

C. L. Funk.

Education (chairman) Counties, Highways and Bridges, Public Utilities, Livestock, Judiciary.

D. M. Bickmore.

Art, Claims and Public Accounts, Education, State Library (chairman), State Mental Hospital, Private Corporations.

House Committees.

The personnel of the committees follows:

Agriculture—Hayes, Welling, Madsen, Peterson, Miller.
Appropriation—Wootton, Ziemer, Pope, Henrie, Meeks, Smith, Stack, Miller, Packard.

Art—Dahlquist, Miller, Richardson, Bickmore, Page.

Banking—Cole, Morris, Allison, Anderson, Ziemer.

Census—Seely, Eardley, Russell, McRae, Woolley.

Claims and public accounts—Stack, Bickmore, Sanderson, Cole, Eardley, Harshberger, Thornley.

Contingent expenses—Smith, Dahlquist, Russell, Page, Kearns, Spencer, Meeks.

Counties—Madsen, Pope, Miller, Sanderson, Seely, Jones, Langston, Funk, Richardson.

Education—Funk, Bickmore, Stack, Sanderson, Crapo, Welling, Woolley, Seely, Eardley.

Elections—Tobias, McRae, Richardson, Ekman, Welling.

Enrollment and engrossment—Farnsworth, Packard, Madsen, Morris, Henrie.

Federal relations and memorials to Congress—Sanderson, Holman, Anderson, Crapo, Jones.

Fish and Game—Russell, Woolley, Madsen, Peterson, Pope, Grow, Wootton, Ziemer, Miller.

Highways and Bridges—Thornley, Smith, Funk, Day, Page, Henrie, Morris, Madsen, Richardson.

Horticulture—Langston, Morris, Hayes, Grow, Farnsworth.

Industrial School—Richardson, Dahlquist, Thornley, Page, Henrie.

Irrigation and Reservoirs—Pope, Thornley, Ziemer, Hines, Peterson, Farnsworth, Tobias, Madsen, Smith.

State Library—Miller, Dahlquist, Grow, Day, Wootton.

Public Printing—Tobias, McRae, Nebeker, Wootton, Sanderson.

Public Utilities—Allison, Pope, Wootton, Spencer, Nebeker, Russell, Anderson, Funk, Tobias.

Resolutions—Eardley, Tobias, Seely, Spencer, Harshberger, Holman, Henrie.

Salaries and Fees—Spencer, Kearns, Grow, Ekman, Woolley.

School for Deaf, Dumb and Blind—Ziemer, Peterson, Seely, Langston, Eardley.

Mining and Smelting—Hines, Cole, Stack, Harshberger, White, Holman, McRae.

Municipal Corporations—Ekman, Allison, Sanderson, Harshberger, Farnsworth.

Penitentiary and Prisons—Woolley, Russell, Day, White, Eardley.

Private Corporations—Kearns, Crapo, Page, Bickmore, Langston, Meeks, Hayes.

Joint Resolutions—Sanderson, Thornley, Cole.

Capitol—Smith, Welling, Dahl-
